

Please do not change the "NO CALL LIST" program! I hate getting calls from people trying to sell things or to use the phone for advertising. It is bad enough that I am still receiving calls from organizations asking for money! I must get atleast five to six of those calls a day. I get enough advertising and requests for donations in the mail but can atleast look through them when I decide to and am not bothered by the phone calls!

I would even appreciate something be done to eliminate the calls that are still going through.

Thank you, Faye Waclawski
